

DRIP HAWAII opens Waikiki's first IV Wellness and Lifestyle Medical Spa at the 'Alohilani Resort Waikiki Beach

HONOLULU (April 22, 2022) – DRIP HAWAII announces the opening of Waikiki's first premiere IV Wellness and Lifestyle MedSpa at the 'Alohilani Resort Waikiki Beach at 2490 Kalakaua Ave., Honolulu, 96815, dedicated to IV Vitamin Nutrition and Lifestyle Medspa Services. The 700-square-foot luxury medical spa has two treatment suites, and an IV infusion lounge and boasts state-of-the-art non-invasive body shaping equipment such as the FDA-approved **EMSCULPT NEO**, for targeted body sculpting, and the **BTL EMSELLA**, a breakthrough treatment for intimate health.

“Medspas traditionally cater to a female demographic,” says Tamara Shaffer, Founder and Director of Operations. “DRIP HAWAII will be the first Lifestyle Medspa in Hawaii to cater to not only the ongoing needs of women but also cater to the growing wellness needs of men, in addition to the sensitivities of the non-binary and LGBT+ communities as a proud business ally.”

The Premium IV Lounge and MedSpa, located on the second floor of the beautiful 'Alohilani Resort Waikiki Beach, was designed by award-winning Jason Sully of Work Shop Hawaii, who along with Tamara Shaffer have created a well-being space that is a perfect marriage with the resorts Pillars of Wellness mission to create “wellness experiences” for their guests.

WHY DRIP?

When you ingest vitamins by mouth only 15%-30% of the active nutrients eventually make their way into your bloodstream. When you receive an IV drip, the nutrients enter your bloodstream immediately bypassing your GI Track for 100% cell absorption. For travelers, vitamin drips can provide instant hydration, nutrients, and electrolytes your body needs. These nutrients can help

travelers eliminate dehydration from traveling, help boost immunity and provide a sense of wellness throughout their stay in Hawaii.

DRIP HAWAII's results oriented IV Wellness and Lifestyle Medspa menu is curated by Tamara Shaffer and Medical Director and partner Dr. Jeff Hirschberg to address the needs of the burgeoning wellness trend, helping people in need with enhanced immune wellness, improved athletic performance, health span longevity, advanced anti-aging therapies, in addition to body sculpting and intimate health.

DRIP HAWAII services include:

IV DRIP LOUNGE

The signature wellness experiences at the luxury IV Lounge begin the moment you walk in with an offered cup of green tea or glass of champagne. The signature premium IV vitamin therapies and vitamin shot injections are provided by clinical Registered Nurses. The IV therapies deliver instant hydration and 100% absorption of micronutrients that provide a wide range of benefits, including helping to detoxify the body and improve its immune function, brain health, glowing skin, energy, and longevity.

The IV menu includes a variety of drips that comprise of vitamins such as NAD+ (nicotinamide adenine dinucleotide) which is a powerful coenzyme that plays a key role at the cellular level across the body. Backed with clinical studies to regenerate cells, stop the aging process, and reverse aging on a cellular level. Promoting athletic performance, boosting your mood, and improving cognitive functions. The nutrient filled IV drips can also help individuals who are going through addiction recovery and replenishes the serotonin production process.

DRIP HAWAII's NAD+ treatments also include Glutathione, which is a powerful antioxidant that is comprised of cysteine, glutamate, and glycine, three amino acids that are found in our bodies, which begin to deplete with age or extreme physical activity. Known as the mother of antioxidants, Glutathione is essential for the immune system's proper functioning and vital in building and repairing tissue.

EMSCULPT NEO

Through the only FDA-approved non-invasive body-sculpting technology, EMSculpt Neo is a revolutionary procedure that can simultaneously deliver heat and magnetic energy at the same time. This results in more fat reduction and more muscle growth compared to any single gold standard product.

DRIP HAWAII MedSpa clients can both burn fat and build muscles through HIFEM (high intensity focused electromagnetic energy) and RF (radio frequency) technologies. It is the only machine on the market backed with clinical studies to reduce visceral fat. Patients can achieve a more youthful, toned appearance in the treated areas after four 30-minute sessions attended by DRIP HAWAII tech specialists.

BTL EMSELLA

Through the FDA-approved EMSELLA, for both men and women, health issues such as incontinence and pelvic floor strength can be treated through this non-invasive HIFEM technology. The EMSELLA utilizes electromagnetic energy to deliver up to 12,000 supramaximal pelvic floor muscle contractions in a single 28-minute session. These contractions strengthen the muscles of incontinent patients as well as those who are suffering from natural aging or sagging of the pelvic floor muscles. Not only strengthening the pelvic floor but lifting the pelvic floor improving overall pelvic health.

DRIP HAWAII is open Tuesday through Friday 11 a.m. to 7 p.m., Saturday 11 a.m. to 4 p.m. and Sunday and Monday for private events.
